THE BEST MINI BOWLING SYSTEM AVAILABLE

FUN FOR ALL AGES!

Global Entertainment's system is the best mini bowling system on the market! We back that big talk up with a 5 year warranty, which is more than double what other systems offer.

WHAT IS MINI BOWLING

An exciting and competitive game that is a scaled down version of full size bowling. This is a great way to bring the fun and excitement of bowling into a space where traditional lanes won't fit.

HOW TO PLAY

At the start of each game bowlers decide whether or not they would like to have the automatic bumpers rise for their lanes. Then, players take turns rolling the ball down the lanes in a thrilling 5 frame game. Players are updated with their score on two 43" monitors that are mounted to the back wall.

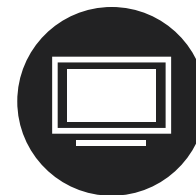

MEDIA WALL

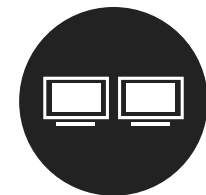

All In One Media Wall

No need for floor or ceiling mounted scoring monitors. All in one media wall safely houses 43" scoring monitors and 75" TV in and out of reach from bowlers

75" LED TV

Entertain customers of all ages with our magnificent Media Wall! This 75" LED screen will cover each pair of lanes and display anything from Cartoons, Movies, Live Sporting Events, or even In-House Advertisements!

43" SCORING MONITOR

Equipped with Automatic Scoring and amazing visuals, our media wall is sure to catch one's eye. Our system comes standard with 43" monitors which are mounted on the back wall for protection and easy installation.

BALL RETURN & PEDESTAL

SOLID STEEL

Our ball return system is fabricated out of solid steel to ensure it will stand the test of time. This tough and rugged system comes standard in a 2 tone orange and blue color scheme. Custom colors can be provided upon request.

BUMPER CONTROLS

Mini Bowling pedestal is equipped with bumper control buttons. Before players begin bowling they will select whether or not they would like bumpers while they bowl. After they make a selection the system will automatically raise the bumpers up every time it is that players turn to bowl.

HEX LED LIGHTS

PIT LIGHTS & OVERLANE LIGHTS

HEX LED CHIPS

Red, Green Blue

RGB allows for an infinite number of colors

White

Traditional RGB lights produce a simulated white but holds a pink hue. These light bars have a designated white LED to create a true white.

UV

Equipped with UV chips, all UV reactive lights will glow like crazy!

Amber

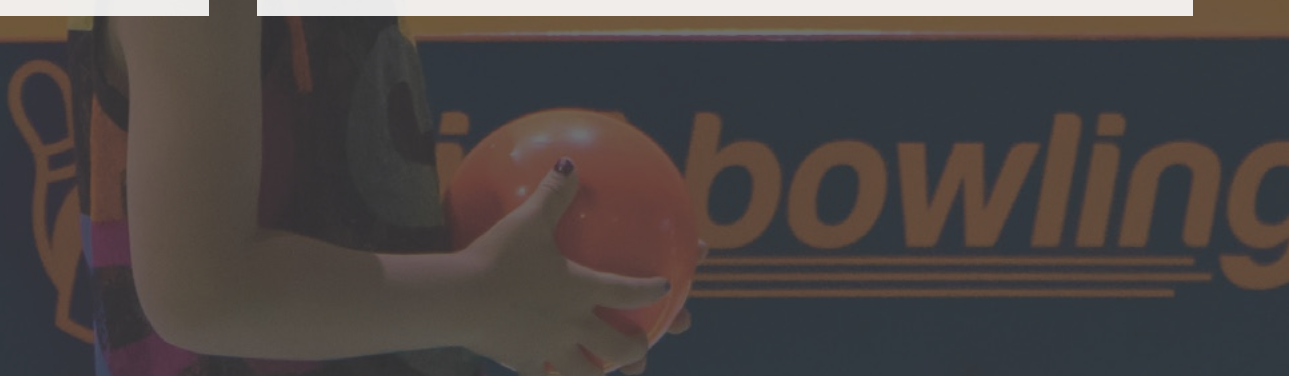

Creates beautiful amber hues not achievable with traditional RGB lights.

MUSIC SYNCHRONIZATION

HEX LED Light bars can synchronize with the beat of music and create a fun and exciting environment.

MORE SPECIAL FEATURES

- Flicker Free
- Link Together Via Dmx 3 Pin Xlr Cable
- Smooth Color Changing (Not Abrupt)
- Led Pulse And Strobe Effect
- Electronic Dimming
- Pre-Programable Light Shows

SYNTHETIC LANES

Our Mini Bowling system uses the same lanes we use for our Full Size bowling products. When our signature white lanes are paired with HEX LED Light Bars they change colors as the lights shine down creating a jaw dropping effect your guests will love.

White lanes pictured. Also available in maple, birch, walnut, and black.

WALL GRAPHICS

SIDE WALL GRAPHICS

Fully captivate your bowlers by adding graphics along side your mini bowling lanes! Choose a graphic from our library of artwork or work with our design team to create custom graphic for your facility!

GLOW GRAPHICS

Adding a glow effect to your graphics for an added wow effect. Wall graphics can enhance with UV reactive inks so that when they are exposed to black lights the entire graphic will glow!

FURNITURE & SEATING

MODULAR SEATING

Global offers many seating and furniture solutions for Mini Bowling lanes. Seating is not required, but does help make your miniature bowling alley feel like a bigger attraction and anchor. By offering seating, you allow guest to sit and wait while they bowl.

Seating and tables are great additions if you are planning on allowing your guest to rent the lanes by the hour. This will not only give them an area to sit and wait for their turn, but also allow them to place food that they purchase from your facility.

This encourages your guest to purchase food and beverages your facility offers. Give your Mini Bowling a traditional bowling alley feel with a modern seating layout.
